** As a part owner of LGS, you are responsible for certain state income tax and reporting requirements related to your share of income earned by LGS. If eligible and elected to file as part of a composite return, LGS will file a state tax return on your behalf reporting your share of business income along with an associated tax payment. If you are not eligible or elect not to be included within a composite return, a schedule K-1 will be issued to you. Similar to the K-1, information will also be reported to the state and in some instances an estimated payment may be withheld on your behalf. However, if a composite return is not elected or you are not eligible you will bear the ultimate responsibility of reporting and paying your share of business income and associated tax to each applicable state.
