Oscar Ganteaume

Dear Inventor,

RE: UNITED STATES PATENT SUBMISSION FILING No. 15/969,839, filed on May 3, 2018.

Congratulations, your patent application entitled “**Framework For Dynamic Cloud Resource Allocation**” has been submitted to the United States Patent Office. Your contribution to the sustained growth and advancement of LGS’ patent portfolio is highly valued and is vital to the success of LGS’ Intellectual Property business.

In recognition of this outstanding achievement, you will receive a monetary award of \$2,500.00, based on the LGS Invention Submission & Patent Incentive Policy.

Over the next twenty-four to forty-eight months, your patent will go through a substantive and thorough examination. You will be contacted throughout the process for additional information. Should you have any questions, please contact Ron Camarda at (973) 437-9862.

Thank you for your innovation. Your dedication and ingenuity will help maintain LGS’ standing as an innovation leader in the marketplace.

Sincerely,

Ted Fidler
Senior Vice President Technology and Innovation
